Swipe right for Auckland

- Learn from world class doctors
- High level of integration with employment and training
- Experience a diverse population and a wide variety of patient presentations

Working as an Intensive Care Medicine Registrar in Our Training Programme

By joining the Auckland Region as an Intensive Care Registrar, you enter a programme with rotations through world class teaching hospitals: North Shore, Waitakere, Auckland City, Starship Children's and Middlemore.

The Intensive Care Medicine Training programme in Auckland (Northern Programme) encompasses all the requirements for attaining a Fellowship from the College of Intensive Care Medicine (www.cicm.org.au). This is a 5 year programme that ensures that trainees will gain a broad range of experience in Intensive Care Medicine; rotating through the Auckland region hospitals. The ICUs all have introductory courses on intensive care medicine. (At present there is no formal course for the CICM Part 1 or Part 2 but many Auckland ICM consultants are happy to advise and assist with your study for these exams.) The Northern programme offers all sub-specialties in intensive care medicine such as Trauma, Paediatrics, Cardiothoracics and Neuro Intensive care.

Eligibility Criteria

- For NZ/Australian graduates to be a PGY3.
- For UK graduates to be a PGY3 – Postgraduate year 3 at minimum.
- Eligible for registration with the Medical Council of New Zealand.
- Preferably have commenced or completed a run in an Intensive Care or High Dependency Unit.
- If dual training, have commenced training in the other specialty.
