# The Airway Course for Critical Care and Emergency

## Working in ICU/ED? Want Improved Airway Skills? The ACE is for you!!

The Airway Course for Critical Care and Emergency (ACE) is specifically designed for critical care and emergency department trainees as well as other clinicians who want to refresh and practise their airway skills.

### Format

A hands on, all day course with skills stations, PBLDs and simulation covering:

- The focused airway exam
- A structured approach to managing airways in the critical care setting
- The "can't intubate, can't oxygenate" situation
- The paediatric airway
- Critical care/ED based airway scenarios

### Why The ACE?

- 90 min of high fidelity simulation to apply skills in a safe environment
- A minimum faculty of 25 experienced airway consultants
- Well equipped skills stations, limited participants, small groups

**To register & for more information visit:**
