

BEYOND BASIC

Advanced Airway Management

Course Description

This course, an addition to the BEYOND BASIC series, is designed to give the ICU trainee a structured approach to management of the upper airway.

Commonly reported airway events in ICU include difficult and failed intubation and tracheostomy related problems. Themes associated with airway disasters include failure to identify high risk airways and failure of advanced airway skills and rescue techniques.

The course includes pre-course reading (course manual provided), pre-course MCQs, e-learning and classroom lectures but the main focus will be the skill stations to develop hands on expertise in rescue techniques and decision making in a crisis situation. Case studies will be used to illustrate situational awareness and decision making.

Who Should Attend?

The course is intended for ICU trainees with prior anaesthetic experience. It assumes basic upper airway skills. It would also be useful for trainees in Anaesthesia and Emergency Medicine. This course is endorsed by CICM as an airway course and by ANZCA for CICO (ER-14-CICO-114)

The Course will cover

- Direct and indirect laryngoscopy (video laryngoscopy)
- Laryngeal mask airways
- Double lumen tube intubation
- Bronchoscopy and fibre-optic intubation
- Tracheostomy and cricothyrotomy
- Intubation planning, airway assessment
- Anticipated and unanticipated difficult intubation
- Endotracheal tube exchange
- Acute upper airway obstruction

Faculty

Dr Ritesh Sanghavi FCICM (Course Director)

Dr Patrick Liston FANZCA, FCICM

Dr William O'Regan FANZCA, FCICM

Dr Deepak Bhonagiri FCICM

A Prof Ian Carney FCICM

Dr John Copland FANZCA

Date: 27-28 August 2015, 0800-1700

Venue: Clinical skills & simulation centre, education centre, Liverpool Hospital, Sydney

Course Fee: \$550 (Incl. \$50 GST).

Contact: Ritesh Sanghavi on 02 87383400 or Ritesh.Sanghavi@sswahs.nsw.gov.au

Registration Details

Written cancellation will be accepted up to two (2) weeks prior to course with a 50% of the fee being reimbursed. No refund will be available after that.

If the course is fully subscribed you will be placed on a waiting list. If a place becomes available you will be advised one (1) week before the course.
