

The Alfred Emergency & Trauma Centre

Trauma Resuscitation Workshop

*A two day practical
course for medical
professionals*

July
8 & 9
2015

The “Trauma Resuscitation Workshop” deals with the first 60 minutes of emergency trauma care.

Presented by some of Australia’s most experienced and well recognised leaders in the multi-disciplinary aspects of trauma care (see over page), the workshop will explore the fundamental clinical and non-clinical skills required for the best-practice management of trauma patients in the Australian emergency department setting.

The two day program includes theoretical lectures, break-out focus groups, expert Q&A sessions and four hours of high fidelity simulation training.

This workshop is accredited by the Australasian College for Emergency Medicine (ACEM) the College of Intensive Care Medicine Australia & New Zealand (CICM), and the Australian College of Rural and Remote Medicine (ACRRM).

Key learning areas:

- Reception and resuscitation of the trauma patient
- The trauma team ideology - Crisis Resource Management
- The patient perspective
- Principles of trauma radiology
- Treatment of specific trauma
- Principles of trauma patient transfer
- Principles of end of life decision-making

Intended audience:

The workshop has been designed for medical professionals who may not deal with trauma on a daily basis, but have responsibility or interest in the field of trauma care. For example (not limited to):

- Emergency medicine trainees and/or Specialists
- Intensive care medicine trainees and/or Specialists
- Surgical trainees and/or Specialists
- Anaesthetic trainees and/or Specialists
- General practitioners
- Rural practitioners across any speciality
- Career Medical Officers

The Alfred Trauma Resuscitation Workshop 8 & 9 July, 2015

Facilitators include:

Professor Peter Cameron

Academic Director, Emergency & Trauma Centre, Alfred Health
Professor of Emergency Medicine, Monash University

Professor Peter Cameron is immediate Past President of the International Federation for Emergency Medicine. He is also Senior Consultant Physician and Academic Director of The Alfred Emergency & Trauma Centre, and Professor of Emergency Medicine at Monash University's School of Public Health and Preventive Medicine. He is currently transitioning back to Australia from his international role as Chairman of Emergency Medicine in Doha, Qatar where he has been working for three years to develop the emergency medicine specialty. His past appointments include Professor/Director of Emergency Medicine at Geelong Hospital, Royal Melbourne Hospital and Prince of Wales Hospital (Hong Kong).

Professor Cameron has attracted over 20 million dollars in competitive grants and is a principal investigator on a number of large multicentre trials. In the last 5 years he has published over 250 manuscripts in Medline indexed journals with more than 400 publications over his career. He has been awarded an Honorary Fellowship of the International Federation of Emergency Medicine, American College of Emergency Physicians (ACEP), the UK College of Emergency Medicine and the Argentine Society.

Professor Mark Fitzgerald

Director of Trauma Services, Alfred Health

Professor Fitzgerald has over 25 years of clinical experience in the resuscitation of major trauma patients. He was President of the Australasian Trauma Society 2003-2005.

Dr Fitzgerald's research themes include systems improvement, error reduction and standardization of resuscitative care. The Trauma Reception & Resuscitation Project he directs is based at The Alfred Trauma Centre and involves the development of evidence based protocols to guide clinical decision making and the trialling of computer aided decision-making software in the resuscitation phase of the treatment of seriously injured patients.

Associate Professor Dinesh Varma

Head of Trauma & Emergency Radiology
Deputy Director of Radiology, Alfred Health

Associate Professor Varma is Deputy Director of Radiology at Alfred Health and a Clinical Associate Professor, Department of Surgery, Monash University. He is immediate Past President of The Royal Australian and New Zealand College of Radiologists.

His particular area of interest is Trauma and Emergency Radiology and MRI, and the role of radiology in the integrated multidisciplinary approach to imaging and management of multi-trauma patients. His main area of research is in traumatic brain and cervical spine injuries.

A full program and list of facilitators can be found on the event web site (link below).

Dates:	8 & 9 July 2015 (08:30-17:30)
Venue:	Alfred Medical Research & Education Centre, 75 Commercial Road, Prahran VIC 3004
Full program:	https://alfredetc-professional-development.cvent.com/TRW
CPD:	Accredited by the ACEM, CICM and ACRRM
Cost:	Early bird price \$1200.00 plus GST ONLY AVAILABLE UNTIL 15 April 2015
Registration:	Register now at https://alfredetc-professional-development.cvent.com/TRW

This workshop is designed specifically for participation by doctors.

A complimentary "Trauma Nursing" program is run separately.
