

Director of Monash Simulation - Monash Doctors Education

About us

As Victoria's largest and arguably most complex health service, Monash Health plays a key role in improving the health of our community, providing healthcare to one quarter of Melbourne's population, across the entire life-span from newborn and children, to adults, the elderly, their families and carers.

Monash Simulation delivers a wide range of simulation for health professionals at all levels (in-situ and Centre- based courses), designed to enhance individuals' skills, interprofessional teamwork and the translation of these into optimal patient care. The Centre, located in Moorabbin, has recently been extensively renovated and now includes two high fidelity simulation suites, as well as multiple debriefing and skills rooms.

Following an organisational restructure, we are now rebuilding our service to better support our medical, nursing and allied health cohorts and ensure we deliver best practice training and development to our frontline clinical teams. As part of our journey, we're now looking for a passionate and committed professional to lead our pursuit of excellence in the simulation field.

About the role

This is a unique opportunity to design, develop and lead a simulation service across the health service by building collaborative partnerships with clinical, education and quality teams and focused on patient and service outcomes. The simulation service will utilise the full range of simulation modalities, and be leveraged by fostering strong teaching and research partnerships with other simulation centres and universities.

About you

While you may not have led a simulation service before, you have certainly gained significant experience in the field and are a passionate educator. You enjoy the challenge that comes from leading and driving change and in particular, you can demonstrate:

- High level expertise in simulation education across a wide range of simulation modalities;
 - Demonstrated ability to meet organisational learning needs that makes a genuine impact on clinical outcomes;
 - Previous experience in designing, implementing and evaluating high quality simulation programs;
 - Exceptional ability to lead, collaborate and innovate, bringing your colleagues on the journey with you; and
 - Considerable research experience;
- Previous experience in quality improvement and/or patient safety and/or a high level of expertise in critical care are highly desirable.

You are enthusiastic and energetic, with a natural ability to think creatively and work collaboratively with others to find innovative solutions that deliver "win win" outcomes.

You may hold advanced qualifications in a healthcare specialty supported by the relevant AHPRA registration. Academic qualifications in simulation, health professions education, education or management will be highly regarded.

In return

This is an outstanding opportunity to strategically lead the Simulation Service within a rapidly growing health service.

You will be supported by the Director, Monash Doctors Education, to achieve the strategic vision and to develop your expertise in leadership, management, simulation and research, in addition to generous professional development opportunities.

Our public health status enables you to benefit from salary packaging options that can significantly increase your take home pay, you'll enjoy subsidised car parking. We're confident that you'll be inspired to contribute every day.

Things you need to know

Monash Health recognises the value of equal employment opportunity and is committed to patient safety and promoting fairness, equity and diversity in the workplace. At Monash Health we are relentless in our pursuit of excellence and work to our six guiding principles.

Preferred candidates will require a clear Police Check and a current Employee Working with Children's Check prior to any offers of employment being made.

As part of our selection process, you may be invited by email to participate in an on-camera video interview.

Please note, applications will be accepted via the Monash Health online Mercury System only. Email applications will not be considered.
