

## Current and Future Employee Opportunities!

Have you thought about Aeromedical Retrieval Medicine for your additional training? LifeFlight Retrieval Medicine is a Queensland based not for profit organisation who works closely with Queensland Health (Retrieval Services Queensland) to provide a Pre-Hospital Retrieval Medicine service to the state of Queensland. We have 8 bases throughout the state and are looking for Australian and NZ critical care graduates for next year and onwards.

Terms are 6 months full time and this will count towards your elective additional training (acute medicine/retrieval). Some of you may already meet the requirements, while others could consider this while planning your career path towards your Fellowship. You will be given an intense 8 day training course prior to commencing on the job to ensure you have been educated and supported well before your first flight.

The LifeFlight website holds a lot of information and what to expect on their website:

[https://www.lifeflight.org.au/page/careers/Medical\\_Careers/Become\\_a\\_Retrieval\\_Registrar/](https://www.lifeflight.org.au/page/careers/Medical_Careers/Become_a_Retrieval_Registrar/)
