

Exciting opportunity for a Staff Specialist or team of VMO Intensivists.

THE POSITION

This is an exciting, newly created position working in a Level 2 Unit providing intensive, high dependency and coronary care services. You will have the opportunity to grow and develop the existing service as the level of acuity grows hospital wide.

You will work alongside a Director of ICU and be supported by a Registrar and Resident and Nursing team. 50% of the nursing team are critical care qualified and the Unit aims to increase this, with the Rural Critical Care Course via the University of Melbourne.

Working within a collegiate and structured organisation this presents a genuine opportunity for a committed physician to enjoy a rewarding career with long term prospects and local opportunities for your family.

To be successful in this role you will be a strong team player and will encourage collaboration and collegiate relationships across multi-disciplinary teams to ensure the best possible service is delivered.

THE HOSPITAL

The health service provides acute care in relation to specialised medicine and surgery, intensive care and emergency services, children's services, maternity services, and mental health services.

Services are also provided in rehabilitation, palliative care, and aged care. The hospital you will work in is a large, modern, 280-bed primary acute and extended care facility with four theatres, in-house MRI and CT services and a state-of-the-art clinical skills laboratory.

The ICU has 10 physical beds, with 9 available and a budget of 8 beds of varying configuration. Throughput is approximately 750pa, with occupancy averaging at 6 beds.

This is an exciting time to join this service as it moves towards being one of the largest regional health services just outside Melbourne.

THE LOCATION

Located a leisurely two hour drive from Melbourne, you'll be living in a city with all the facilities you'd expect from a fast-growing area. The region offers excellent shopping, sporting and recreational opportunities. There are high-quality public and private schools at both primary and secondary level and a university campus in town. An added benefit is the close proximity to the wineries, Murray River region & Victorian Ski Fields. There are sporting clubs, theatre companies, shows and events, social activities, and much more to discover to suit any lifestyle.

Renowned for beautiful countryside, native forests, fertile farmlands, friendly communities and a temperate climate here you will find a fantastic lifestyle for you and your family.

CRITERIA

To be successful in applying for this position you must hold FCICM (or be close to obtaining fellowship) and be eligible for registration with the Australian Health Practitioner Regulation Agency. If you are unsure if you meet the selection criteria please forward a copy of your most recent resume and I will assess your eligibility and will advise you of your options.

For a confidential discussion contact Emma Gordon today with a copy of your current CV and quote ref #V-058159.
