## Intensive Care Specialist

Northland District Health Board, New Zealand

Whangarei Hospital is the regional hospital hub of Northland DHB providing secondary care services to the northern most part of New Zealand. The Hospital has a modern eight bed Level 2 Intensive Care Unit providing cares for 525 patient admissions per year, over 40% are mechanically ventilated. The Unit sees a wide range of presentations and includes major trauma and paediatrics. The Unit provides medical and nursing cover for a busy flight retrieval service in conjunction with St John and the Northland Emergency Services Trust (NEST) – overseeing approximately 480 helicopter transfers per year. The Unit also provides an ICU outreach service.

Northland covers an area of 12,600 square kilometres with a population of approximately 170,000. It boasts some of the most scenic and exciting coastal areas of New Zealand in a subtropical climate. Popular water recreation areas include the Bay of Islands and Poor Knight Islands Reserves.

Applications are invited from Specialists in possession of the Fellowship of the College of Intensive Care Medicine. As associated specialty interests such as anaesthesia, emergency medicine or internal medicine can be accommodated, dual trainees are encouraged to apply. Appointments will be considered for suitable applicants at an advanced stage of training. In conjunction with the Clinical Director this post will lead the development of the intensive care services and the supervision of training medical staff.
