

ECHO CRITICAL CARE ECHOCARDIOGRAPHY COURSE

St Vincent's Hospital, Melbourne
Department of Critical Care Medicine
Royal Melbourne Hospital, Intensive Care Unit

What is it?

This highly successful course, led by Intensivists and Anaesthetists, aims to help participants achieve competence in performing and interpreting transthoracic echocardiography in the critical care setting.

With 6-8 weeks of preparation using the University of Melbourne Transthoracic Echocardiography (TTE) Simulator Course, culminating in a two-day intensive workshop, we hope that essential skills will be retained for longer than traditional short courses allow.

Who is it for?

This course is ideal for those working and training in Intensive Care, Anaesthetics and Emergency. It is accredited by the College of Intensive Care Medicine (CICM) for college training.
